(c) Data Processing Purpose

3. 数据处理目的

As a global financial institution, Citi is subject to applicable laws and requirements including anti-money laundering, risk management, audit and other requirements imposed by regulators in multiple jurisdictions. The transferred data is ingested, transferred and archived for the purpose of complying with Citi's internal compliance obligations and policies, including monitoring and surveillance, to comply with applicable legal and regulatory obligations. It is essential for financial institutions such as Citi to maintain supervision and review of all communications, as this is required to identify potential misconduct such as insider trading or market misconduct and to enable Citi to maintain sound risk management and internal control frameworks. Such data transfers are limited to the minimum scope necessary to achieve these purposes and are conducted in accordance with the principle of necessity and proportionality.

作为一家全球性金融机构，花旗须遵守适用法律和要求，包括多个司法管辖区监管机构施加的反洗钱、风险管理、审计及其他要求。所传输的数据被收集、传输并归档，目的是遵守花旗的

内部合规义务和政策，包括合规监控和审查，以符合适用的法律和监管义务。对如花旗此类金融机构而言，对所有通讯进行合规监督和审查至关重要，因为这是识别潜在不当行为（如内幕交易或市场失当行为）的必要手段，并使花旗能够维持健全的风险管理和内部控制架构。此类数据传输仅限于实现该等目的所必需的最小范围，并遵循必要性和比例原则进行。

- (i) **Operational Resilience:** Robust surveillance frameworks, specifically encompassing the monitoring of electronic communications such as chat records, are imperative for Citi to effectively identify, deter, and prevent employee misconduct and regulatory non-compliance. The absence of such comprehensive oversight directly exposes the financial institution to exacerbated compliance vulnerabilities and an elevated risk profile. Critically, any impediment to accessing these essential communication records could precipitate significant institutional repercussions and penalties, particularly given that the U.S. parent entity operates within a highly regulated environment demanding consistent and unified internal compliance adherence.

- (1) 运营韧性：健全的监控框架，特别是涵盖对聊天记录等电子通讯的监控，对于花旗有效识别、阻止和防范员工不当行为及监管违规行为至关重要。缺乏此类全面监督将直接导致该金融机构面临加剧的合规漏洞和更高的风险状况。关键在于，任何妨碍获取这些必要通讯记录的行为都可能引发重大的机构后果和处罚，特别是考虑到美国母公司在高度受监管的环境中运营，要求遵守一致且统一的内部合规标准。

- (ii) **Regulatory Compliance:** Regulations of jurisdictions where Citi operates mandate that all records be maintained in a true, complete, and immutable format, specifically non-rewritable and non-erasable, or alternatively, within a time-stamped audit-trail that ensures prompt accessibility.

- (2) 监管合规：花旗经营所在地司法辖区的法规要求所有记录必须以真实、完整且不可更改的格式保存，具体而言，应为不可重写和不可擦除的格式，或者，保存在带有时间戳的审计跟踪系统中，确保能够及时访问。

- (iii) **Usage Restriction:** Please be assured that the archived data is strictly limited to legal, regulatory, and internal quality assurance purposes. It will NOT be used for marketing, user profiling, or any other unrelated commercial purposes.

- (3) 用途限制：敬请放心，归档数据严格限于法律、监管和内部质量保证目的。不会用于营销、用户画像或任何其他无关的商业目的。

(d) Data Processing Method

4. 数据处理方式

The following section details Citi's robust and controlled protocol for the lifecycle management of electronic communications data, specifically pertaining to WeCom/WeChat, in furtherance of its regulatory reporting obligations and internal compliance framework.

以下章节详细说明了花旗为履行其监管报告义务和遵守内部合规框架，针对电子通讯数据（特别是与企业微信/微信相关的数据）全生命周期管理所采取的稳健且受控的数据处理方式。

- (i) **Data Collection:** Citi systematically collects WeCom/WeChat conversation data through a designated and authorized third-party vendor. This vendor is mandated to retrieve the data directly from the Tencent WeCom platform utilizing Tencent's proprietary Application Programming Interface (API). All collection activities are executed in strict adherence to Citi's precise instructions and established technical specifications, thereby ensuring data integrity and an auditable chain of custody from the point of origin.
 - (1) 数据收集：花旗通过一家指定且经授权的第三方供应商系统地收集企业微信/微信对话数据。该供应商被授权利用腾讯专有的应用程序编程接口直接从腾讯企业微信平台获取数据。所有收集活动均严格遵守花旗的明确指示和既定技术规范执行，从而确保数据完整性以及从源头开始的可审计的监管链。
- (ii) **Data Storage:** WeCom/WeChat data will first be securely provisioned to a dedicated data center located in Hong Kong. This interim storage serves the singular, explicit purpose of facilitating its secure and efficient transmission.
 - (2) 数据存储：企业微信/微信数据将首先安全地预置到位于香港的专用数据中心。此临时存储的唯一明确目的是促进其安全高效地传输。
- (iii) **Data Use:** Citi employs the processed WeCom/WeChat data to discharge its mandated internal compliance obligations and to uphold its internal policies and procedures. This scope of use encompasses, but is not limited to, proactive communication monitoring, comprehensive surveillance activities, and the imperative to ensure stringent adherence to all applicable laws and regulations. It is critical to note that the integrity of the original data is preserved, remaining unaltered, and is not utilized for any purpose tangential or unrelated to Citi's legitimate compliance requirements.
 - (3) 数据使用：花旗将处理后的企业微信/微信数据用于履行其规定的内部合规义务和维护其内部政策与程序。此使用范围包括但不限于主动的通讯监控、全面的监督活动以及确保严格遵守所有适用法律和法规的必要措施。关键之处在于，原始数据的完整性得以保留，保持不变，且不会用于与花旗正当的合规要求无关或次要的任何目的。
- (iv) **Data Processing:** All data processing activities are conducted in full conformance with Citi's records management policies and all relevant data retention policies. In

instances where predefined escalation events are triggered, Citi rigorously adheres to its established internal compliance escalation model, initiating further appropriate processing, review, and action.

- (4) 数据处理：所有数据处理活动均完全符合花旗的记录管理政策和所有相关数据保留政策。在触发预定义的升级报告事件时，花旗严格遵守其既定的内部合规监控升级报告模式，启动进一步的处理、审查和行动。
- (v) Data Transmission: The transmission pathway for relevant WeCom/WeChat data is executed through a secure process, aligned with industry security standards. Data is initially transferred from the WeCom platform within mainland China to an Internet Content Provider (ICP) validated proxy service, also situated in China. Following this secure transit, the data is transmitted to the aforementioned Hong Kong data center. Subsequently, the data will be sub-transferred to Citibank N.A., with headquarters located in New York City, USA.
- (5) 数据传输：相关企业微信/微信数据的传输路径通过符合行业安全标准的安全流程执行。数据首先从中国大陆境内的微信平台传输至同样位于中国的、经互联网内容提供商验证的代理服务。在此安全传输之后，数据被发送至前述的香港数据中心。随后，相关数据将被再传输至总部位于美国纽约的花旗银行。
- (vi) Data Provision: Citi retains absolute and exclusive control over the provision of this data to any external third party. Under no circumstances is any third party authorized to disclose, disseminate, or provide this data to another entity without Citi's explicit, documented, and prior written instruction. This stringent control mechanism ensures that all data sharing is rigorously managed, authorized, and auditable at the highest internal level.
- (6) 数据提供：花旗保留向任何外部第三方提供此数据的绝对且排他性的控制权。在任何情况下，未经花旗明确、书面记录且事先的书面指示，任何第三方均无权向另一实体披露、传播或提供此数据。这一严格的控制机制确保所有数据共享都在最高内部层面得到严格管理、授权和审计。
- (vii) Data Deletion: WeCom/WeChat data temporarily residing in interim storage, prior to its successful ingestion into Citi's U.S. data centers, is subject to a maximum retention period of 365 days. Upon the expiration of this defined period, the data is systematically and irrevocably deleted from such interim storage.
- (7) 数据删除：临时存储中的企业微信/微信数据，在成功导入花旗美国数据中心之前，其最长保留期限为 365 天。在此规定期限届满后，数据将从临时存储中系统性且不可撤销地被删除。
