## Frequently Asked Questions (FAQ)

### 1. When are custodian fees charged?

Custodian Fees are charged semi-annually on 30 June for the period of January to June, and 31 December for the period of July to December. Charges will be made earlier if 30 June or 31 December falls on a Public Holiday and/or Sunday, and the days in that month will vary accordingly.

### 2. How are custodian fees computed?

**Monthly Average Stockholding Balance** = Sum of daily stockholding balance ÷ Number of days in the month

**Single Month Custodian Fee** = Custodian Fee Rate x Monthly average stockholding balance

**Custodian Fee (Semi Annual Fee)** = Sum of the Single Month Custodian Fees during the 6 month period

#### Example:

Mr. Tan is a CPC brokerage customer that holds US stocks with Citibank. As a CPC customer, he will be charged custodian rate of 0.0125% for his Monthly Average Stockholding Balance.

Month	Monthly Average Stockholding Balance (USD)	Custodian Fee Rate (%)	Single Month Custodian Fee (USD)
July	0	0.0125%	0
August	100,000	0.0125%	12.5
September	50,000	0.0125%	6.25
October	0	0.0125%	0
November	20,000	0.0125%	2.5
December	20,000	0.0125%	2.5
Total			23.75

At the end of December, Mr. Tan will be charged a custodian fee of USD 23.75 for his US Stockholdings.
